

## List of Solicitors firms

The lung nurses are unable to recommend one particular firm but have provided a list of firms for you to consider. All of these firms specialise in personal injury claims. The list is alphabetical and not in any order of preference.

Some of these solicitor firms have been used by members of the local patient Support Group and some firms attend the National Lung Nurses Conference.

Whilst these specialist firms are not all based locally they often agree to travel to see you at home at your convenience.

If you need any advice about using list please speak to your nurse. Please note that we are unable to recommend firm! Further information can be found at [www.mesothelioma.co.uk](http://www.mesothelioma.co.uk)

You are free to choose any firm to represent you but some questions to ask a potential firm include:

- How many asbestos claims has the solicitors dealt with?
- How long will it take to settle the claim?
- Will the solicitor visit you at home?
- Will you need a further medical examination?
- Will there be any costs to you regarding a claim?

## Mesothelioma

If you suspect your exposure to asbestos occurred whilst you were in the UK Military, you can ring the Mesothelioma UK Armed Forces Benefits Officer for assistance in you claim:
